## **CR** new generation chair the J Series

J Series redefines comfort with its sleek lines and curves that please the senses.

J Series design technology blends high soft mesh fabric with high density sponge naturally into the design contours.

J Series transforms conference rooms to a new level of communication space

# J series ergonomics & clean modern lines

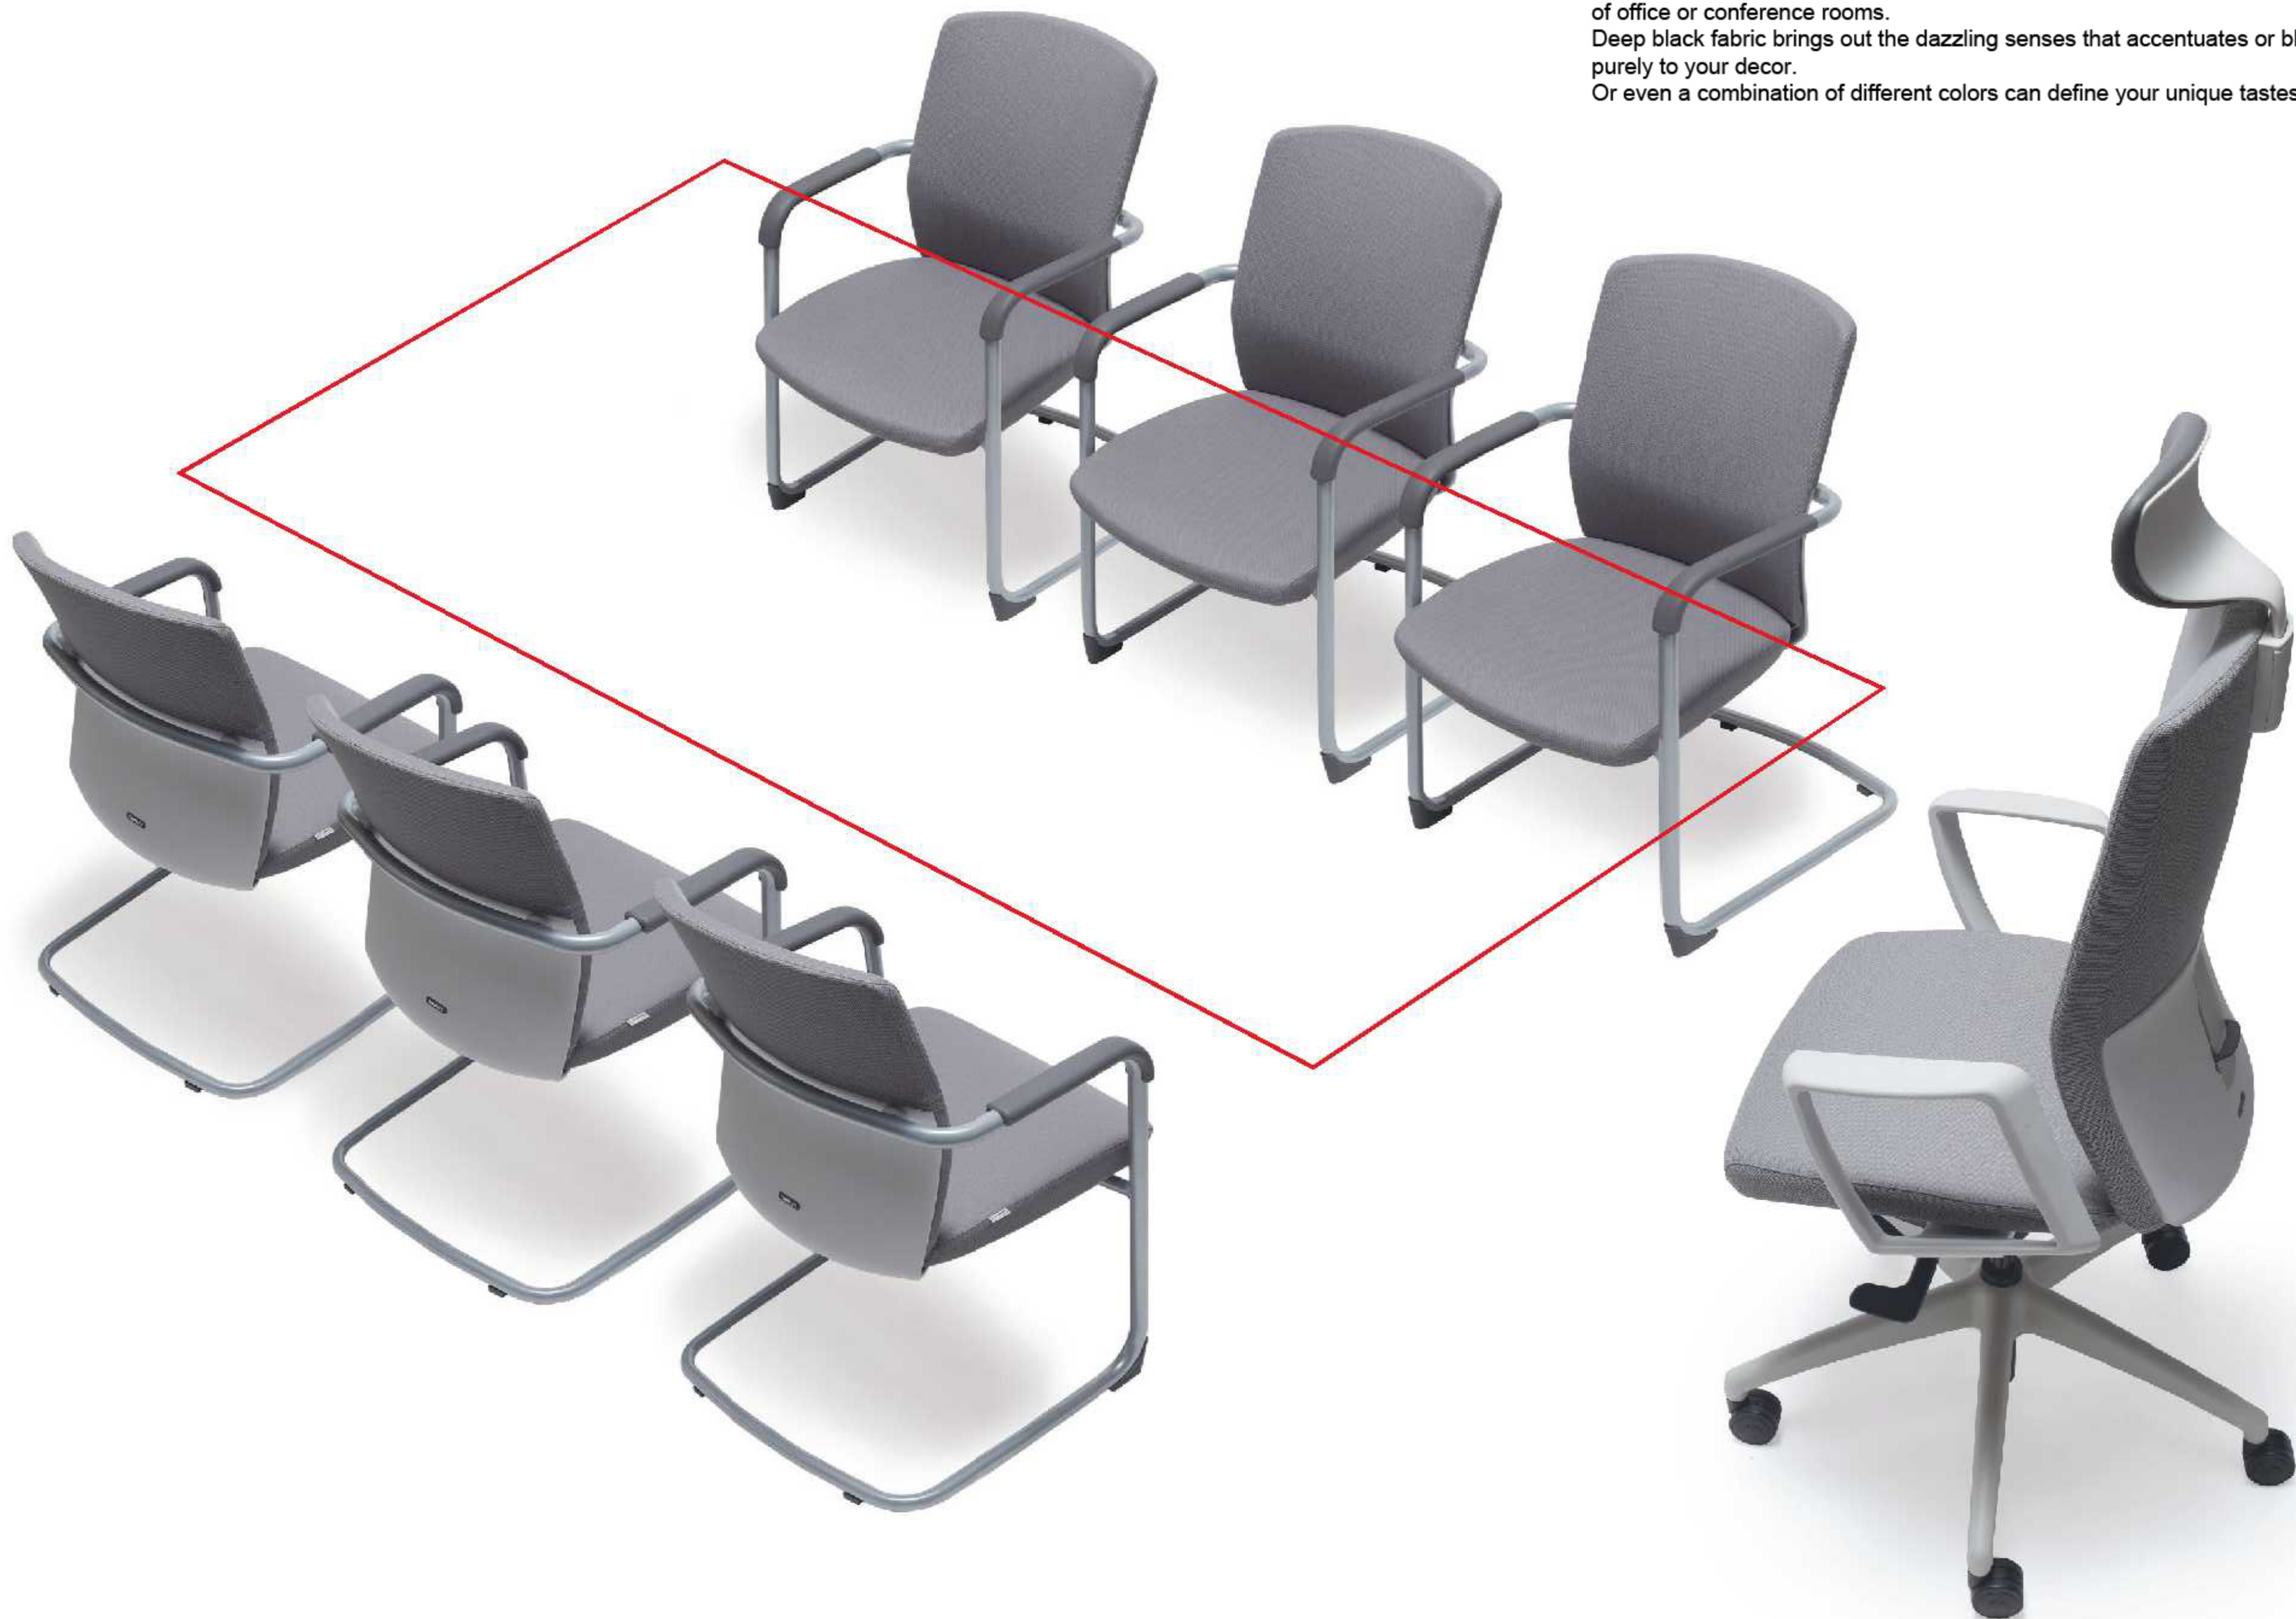

The designers key emphasis of the chair design is ergonomics with sensory design in mind. In other words, J series ergonomic design provide comfort to the human body with delicate lines and curves at the backboard surface. Without sacrificing style, the frame line of the backboard perfectly matches the base cover of the hip line.

## J series stylish chair with colors

J series come in a variety of stylish colors that compliments the interior decor of office or conference rooms. Deep black fabric brings out the dazzling senses that accentuates or blends in purely to your decor. Or even a combination of different colors can define your unique tastes in room decor.
